

An aerial photograph showing a large solar farm in a coastal area. The top half of the image shows the dark blue, rippling surface of the sea. A thin strip of white sand beach separates the sea from the solar farm. The solar farm itself is a vast field of solar panels, with a distinct grid pattern. The panels are arranged in long, parallel rows that curve slightly. The color of the solar panels transitions from a dark blue in the foreground to a lighter, teal-green towards the background. The overall scene is captured from a high angle, looking down at the solar farm and the sea.

Sauleda

**SOLAR PRO
MEDITERRÁNEO**

MEDITERRÁNEO

The Mediterranean culture, with its eternal beauty and its deep values, feeds the new Sauleda designs. La cultura mediterránea, con su belleza eterna y sus valores profundos, alimenta los nuevos diseños de Sauleda.

“The inhabitants of the Mediterranean feel beauty with greater intensity”. “Los habitantes del Mediterráneo sentimos la belleza con mayor intensidad”.

Antoni Gaudí

The Mediterranean is culture and emotion. It's a calm sea and an invigorating sun with rays of light that dissolves in the shadow and a very pure blue sky that sees the birth of our way of understanding beauty.

The Greek and Roman canons, the golden ratio... Mediterranean culture is a creative wisdom that transforms the simple into sublime taking care of raw material without masking it. You see it in the architecture, art, gastronomy, but also in a lifestyle that values hedonism, everyday pleasures and sensory enjoyment that small details offer us.

Today that rich and vibrant substance feeds, in a particularly energetic form, global culture. It is the honest, the familiar, the open, the sociable, the optimistic, deep values, the spreading of a joie de vivre that has become universal.

These are the same values that feed the soul of Sauleda. Born in a small fishing village, on the shores of a green, blue and turquoise sea, the essence of this hundred-year-old brand is in the family's hard work for generations to offer technical fabrics that

promote well-being as well as symbolize optimism and quality of life.

This technically perfect material is destined to create fabrics with vibrant colors, spaces, shade and comfort that promise happiness in gardens and terraces, fun in leisure places, communication in work spaces or protection in transport.

With the honesty of understanding these values deeply as part of their own history, Sauleda creates technical fabrics that transmit and promote the style of Mediterranean life.

Because Sauleda is not only the technical answer to your needs, it is also perfectly functional as well as a vital concept and full of emotions.

Mediterráneo es cultura y es emoción. Es un mar tranquilo y un sol tonificante de juegos de luz disueltos en la sombra y un cielo azul muy puro que vieron nacer nuestra forma de entender la belleza.

El canon griego, el romano, la proporción áurea... la cultura mediterránea es una sabiduría creadora que transforma lo sencillo en sublime cuidando la materia prima sin enmascararla. Sucede en la arquitectura, en el arte, en la gastronomía, pero también en un estilo de vida que pone en valor el hedonismo, los placeres cotidianos y el disfrute sensorial que nos ofrecen las pequeñas cosas.

Hoy esa sustancia tan rica y vibrante alimenta, de una forma especialmente enérgica, la cultura global. Su cualidad honesta, familiar, abierta, sociable, optimista, de valores profundos, contagian una alegría de vivir que se ha vuelto universal.

Son estos mismos los valores que alimentan el alma de Sauleda. Nacida en un pueblecito de pescadores, a orillas de ese mar de aguas de verdes, azules y turquesas, la esencia de esta marca centenaria está

en el esfuerzo familiar durante generaciones para ofrecer tejidos técnicos que fomentan el bienestar y que simbolizan también optimismo y calidad de vida.

Esa materia técnicamente perfecta está destinada a crear tejidos de colores vibrantes, espacios de sombra y confort que prometen felicidad en jardines y terrazas, diversión en lugares de ocio, comunicación en espacios de trabajo o protección en el transporte.

Con la honestidad de conocer bien esos valores como parte de su propia historia, Sauleda crea tejidos técnicos que transmiten y fomentan el estilo de vida mediterránea.

Porque Sauleda no es solo una respuesta técnica y funcional perfecta. También es un concepto vital y lleno de emociones.

SOLAR PRO

**To create shade is to give a protective balm,
a parenthesis of light and poetic architecture which
cares for and protects us.** Crear sombra es dar un
bálsamo protector, un paréntesis de arquitectura ligera
y poética que nos cuida y nos resguarda.

1 LATEST TRENDS IN DESIGNS, COLOURS AND TEXTURES ÚLTIMAS TENDENCIAS EN DISEÑOS, COLORES Y TEXTURAS

Sauleda creates environments and emotions, bright colors, modern designs, comfort and new trends. It goes beyond manufacturing technical fabrics, creating authentic furnishing solutions. The result? Designs and shades that inspire solutions for every moment. Choosing a Sauleda product means having the support of a great brand and the widest market. Sauleda crea entornos y emociones. Colores vivos, diseños modernos, confort y nuevas tendencias. Va más allá de fabricar tejidos técnicos, crea auténticas soluciones de decoración. ¿El resultado? Diseños y tonalidades que inspiran soluciones para cada momento. Elegir un producto Sauleda significa contar con el apoyo de una gran marca y el catálogo más amplio del mercado.

2 ENERGY SAVING AHORRO ENERGÉTICO

Choosing a suitable sun protection fabric significantly improves the energy performance of buildings by clearly reducing the energy consumption during the hottest months. Elegir un tejido de protección solar adecuado mejora de forma importante el rendimiento energético de los edificios al reducir de forma evidente el consumo energético durante los meses de más calor.

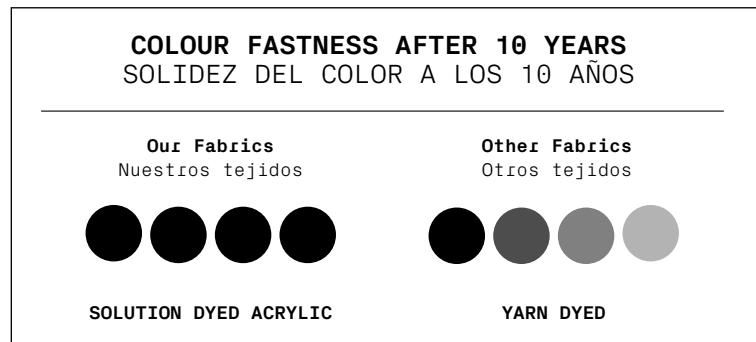

3 UP TO 10 YEARS GUARANTEE GARANTÍA HASTA 10 AÑOS

Sauleda continually verifies the durability of its technical fabrics, which is why its guarantee policy is extremely rigorous. After many years and tests carried out in prestigious laboratories, the results show that Sauleda fabrics remain in perfect condition for more years than their own guarantee indicates. In its rigorous commitment to the customer, the brand offers a guarantee of up to ten years in the event of abnormal deterioration of the fiber and color of the fabric under normal conditions of sun exposure and atmospheric agents, counting from the date of installation. You can see the warranty conditions at www.sauleda.com. Sauleda verifica continuamente la durabilidad de sus tejidos técnicos, por ello su política de garantía es extremadamente rigurosa. Después de muchos años, tras pruebas realizadas en prestigiosos laboratorios, los resultados muestran que los tejidos Sauleda se mantienen en perfecto estado más años de los que indica su propia garantía. En su riguroso compromiso con el cliente, la marca ofrece hasta diez años de garantía en caso de que se produzca un deterioro anormal de la fibra y del color del tejido en condiciones normales de exposición solar y de agentes atmosféricos, contando desde la fecha de instalación. Puede ver las condiciones de la garantía en www.sauleda.com.

4 MAXIMUM COLOR DURABILITY AND WEATHER RESISTANCE MÁXIMA DURABILIDAD DEL COLOR Y RESISTENCIA A LA INTEMPERIE

Solar Pro fabric is dyed directly into the acrylic fiber mass, ensuring optimum color resistance to UV rays and guaranteeing color durability and weather resistance over time. It is a process incomparable with the ordinary dyeing processes of other brands in which the thread of the fabric is simply dyed, which means that the dye only superficially penetrates into the outer layers and, consequently, the color does not survive the passage of time. El tejido Solar Pro es tintado directamente en la masa de la fibra acrílica, asegurando una óptima resistencia del color a los rayos UV y garantizando la durabilidad del color y la resistencia a la intemperie a lo largo del tiempo. Es un proceso incomparable con los procesos ordinarios de tintado de otras marcas en los que se tinta simplemente el hilo del tejido, lo que hace que el tinte solo penetre superficialmente en las capas externas y, en consecuencia, el color no resiste el paso del tiempo.

5 EASY CLEANING AND MAINTENANCE FÁCIL LIMPIEZA Y MANTENIMIENTO

The Sauleda Protector finish repels water and dirt, making it easy to clean and maintain the fabric year after year. Only these four basic tips should be followed. El acabado Sauleda Protector repele el agua y la suciedad, facilitando la limpieza y el mantenimiento del tejido año tras año. Solo deben seguirse estos cuatro consejos básicos:

- **Vacuum dirt periodically. If necessary, clean with neutral soap, a sponge and water at a maximum temperature of 30°C. Rinse only with water.** Aspirar la suciedad periódicamente. Si es necesario, limpiar con jabón neutro, una esponja y con agua a una temperatura máxima de 30°C. Aclarar solo con agua.
- **Always let the canvas dry completely before rolling or folding it.** Dejar secar siempre completamente la lona antes de enrollarla o plegarla.
- **Never use abrasive products.** No utilizar nunca productos abrasivos.
- **Always store the awning in a cover during the winter months.** Guardar el toldo siempre en una funda durante los meses de invierno.

PLAINS LISOS

Sauleda manufactures more than 130 solid colors in 100 % mass-dyed acrylic fabrics to enjoy optimal sun protection. Sauleda fabrica más de 130 colores lisos en tejidos 100 % acrílicos tintados en masa para disfrutar de una protección solar óptima.

MOSAIK

With a technology that allows the creation of color combinations never seen before, Mosaik offers a unique yarn with variations of tones and shapes in every meter to give free rein to the imagination. This technology uses randomness to create a unique thread in every one of its meters. Con una tecnología que permite crear combinaciones de colores nunca vistas hasta la fecha, Mosaik ofrece un hilo único con variaciones de tonos y formas en cada metro para dar rienda suelta a la imaginación. Esta tecnología utiliza la aleatoriedad para crear un hilo único en cada uno de sus metros.

FORCE

Manufactured with high-end acrylic fiber (FC), Force fabric offers solutions and multiple possibilities in all those situations where it is necessary to add extreme resistance to traction and tearing as well as greater lightness. Its UV protection indexes make it an ideal fabric for protection in special outdoor situations. Force fabrics are available in different widths to facilitate the manufacturing process.

Fabricado con fibra acrílica de alta gama (FC), el tejido Force ofrece soluciones y múltiples posibilidades en todas aquellas situaciones dónde sea necesario añadir una resistencia extrema a la tracción y al desgarro así como mayor luminosidad. Sus índices de protección UV le convierten en un tejido idóneo para protección en situaciones especiales a la intemperie. Los tejidos Force se disponen en diferentes anchos para facilitar el proceso de confección.

SOLRAIN

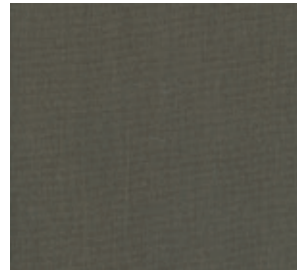

This is the new generation of all-terrain acrylic fabrics from Saulede, adapted to withstand both the elements of the sun and the rain. Its UV protection indexes and its high water column give it all the qualities that should be demanded of a fabric for outdoors use. It offers solutions and multiple possibilities in all those situations where it is necessary to add a safeguard for the rain, as well as special solar and thermal protection. For proper functioning, it must be made with the resin-coated side inside. Esta es la nueva generación de tejidos acrílicos todoterreno de Saulede, adaptados para soportar tanto las inclemencias del sol como de la lluvia. Sus índices de protección UV y su elevada columna de agua le confieren todas las cualidades que deben exigirse a un tejido aplicado siempre en la intemperie. Ofrece soluciones y múltiples posibilidades en todas aquellas situaciones dónde es necesario añadir una salvaguarda para la lluvia, además de una protección especial solar y térmica. Para su adecuado funcionamiento se debe confeccionar con la cara resinada en el interior.

SAULEDA MASACRIL®

Sauleda Masacril® fabrics increase their repellency without losing breathability and have a unique finish that gives them great resistance against stains, which increases color stability and extends their life. Los tejidos Sauleda Masacril® aumentan su repelencia sin perder transpirabilidad y tienen un acabado único que les otorga una gran resistencia frente a las manchas, que incrementa la estabilidad del color y que alarga su vida útil.

SAULEDA MASACRIL® ESPECIAL

The special treatment gives the canvas qualities and water column resistance of more than 1,000 mm. Its wide range of colors makes it an ideal technical fabric when excellent waterproof results are required. El acabado especial confiere al tejido unas cualidades y una resistencia de columna de agua superior a 1.000 mm. Su amplia gama de colores le convierte en un tejido técnico ideal cuando se necesitan excelentes resultados de impermeabilidad.

Fabrics made to withstand harsh outdoor conditions, offering the best comfort and softness. They incorporate multiple qualities and treatments to cope with the most demanding environments, guaranteeing excellent performance. Tejidos fabricados para soportar las duras condiciones del exterior, ofreciendo el mejor confort y suavidad. Incorporan múltiples cualidades y tratamientos para hacer frente a los entornos más exigentes garantizando un rendimiento excelente.

GREEN® by Sauleda and Pureti

The technical fabrics treated with this finish, designed by Sauleda and Pureti, clean and purify the air through photocatalysis. They eliminate contaminants such as NOx, SOx and VOCs, in addition to preventing the creation of mold and the proliferation of bacteria. Los tejidos técnicos tratados con este acabado, diseñado por Sauleda y Pureti, limpian y purifican el aire mediante la fotocatalisis. Eliminan contaminantes como NOx, SOx y COVs, además de prevenir la creación de moho y la proliferación de bacterias.

TECHNICAL OVERVIEW

RESUMEN TÉCNICO

Below is a summary with the technical data sheets of all the obtainable fabrics in this catalog, at a single glance. Summarized technical information for each fabric. A continuación, un resumen con las fichas técnicas de todos los tejidos de este catálogo para poder obtener, de un solo vistazo, la información técnica resumida de cada uno de ellos.

SOLAR PRO TECH

The most effective alliance on the market between an extraordinary technical product and the most demanding sun protection is the essence of the new technical collections by Sauleda. La alianza más eficaz del mercado entre un producto técnico extraordinario y la protección solar más exigente es la esencia de las nuevas colecciones técnicas de Sauleda.

THE REVOLUTION UNDER THE SUN LA REVOLUCIÓN BAJO EL SOL

1

UNIQUE FABRICS, MORE THAN A THOUSAND SOLUTIONS TEJIDOS ÚNICOS, MÁS DE MIL SOLUCIONES

Sauleda's new collections of technical fabrics offer a wide variety of products with different weights, widths and more than a thousand references that displays the brand's effort to provide clients with the best protection and care for every need. Las nuevas colecciones de tejidos técnicos de Sauleda ofrecen una gran variedad de productos con diferentes gramajes, anchos y más de mil referencias que expresan el esfuerzo de la marca por aportar la mejor protección y cuidado a las personas para cada necesidad.

2

NOT JUST SUN PROTECTION NO SOLO PROTECCIÓN SOLAR

Sauleda technical fabrics, in addition to their high performance for perfect sun protection, are also 100% waterproof fabrics. Los tejidos técnicos de Sauleda, además de sus altas prestaciones para una protección solar perfecta, algunos son, además, tejidos 100 % impermeables.

3

MAXIMUM DARKNESS MÁXIMA OSCURIDAD

Many of the Sauleda collections contained in this book are designed to provide maximum darkness when 100% dark rooms are needed. Muchas de las colecciones de Sauleda contenidas en este libro están diseñadas para dar respuesta allí donde se necesitan estancias 100 % oscuras.

4

LET THE AIR THROUGH DEJAR PASAR EL AIRE

Some of these technical sun protection fabrics are microperforated, which allows air and ventilation to pass through, as well as allowing the exterior to be seen from the interior. Algunos de estos tejidos técnicos de protección solar son microperforados, lo que permite el paso del aire y la ventilación, además de permitir ver el exterior desde el interior.

5

PROTECTION AGAINST FIRE PROTECCIÓN FRENTE AL FUEGO

All these fabrics are flame retardant with T1, T2 classifications and all of them comply with all ISO regulations. Una gran parte de estos tejidos son ignífugos con clasificaciones T1, T2 y todos ellos cumplen con todas las normativas ISO.

6

EVERY POSSIBLE FINISH TODOS LOS ACABADOS POSIBLES

Glossy, matt, satin, embossed, textile and cube, these collections display a wide variety of engravings and finishes to be able to combine and create the best environment. Brillante, mate, satinado, gofrado, textil y cube, estas colecciones despliegan una alta variedad de grabados y acabados para poder combinar y crear el mejor ambiente.

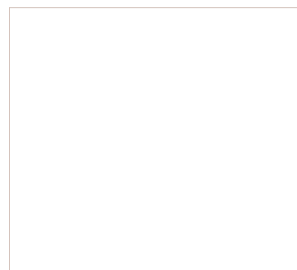

7

ROLLABLE OR UNDER TENSION ENROLLABLES O EN TENSIÓN

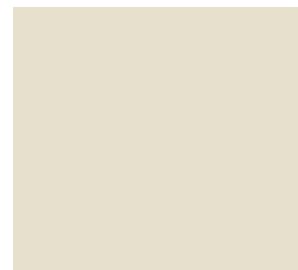

Most of these models are rollable, but there are also those designed for application under tension in the construction of sun protection sails. La mayoría de estos modelos son enrollables pero también los hay pensados para su aplicación en tensión en la construcción de velas de protección solar.

VIP FR

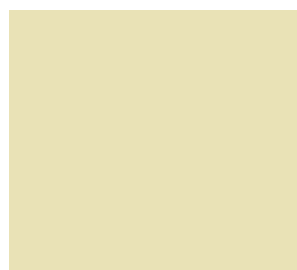

The new Vip FR fabric offers great resistance and mechanical stability over time. With a super flat finish and lacquered on both sides with a wide range of colors, this model allows for very daring color combinations. In addition, its 250 cm width makes it as easy to use as possible. El nuevo tejido Vip FR ofrece una gran resistencia y estabilidad mecánica a lo largo del tiempo. Con un acabado súper plano y lacado en sus dos caras, esta es la colección con la mayor variedad en gama de colores, lo que permite combinaciones cromáticas muy atrevidas. Además, sus 250 cm de ancho facilitan al máximo su aprovechamiento.

TREND

Trend's amazing thermal behavior provides elevated comfort by reducing the temperature by 10% and gaining a pleasant feeling of freshness. The Trend collection creates a new trend in the production of pergolas. El excelente comportamiento térmico de Trend y Trend Light proporcionan un alto confort al lograr reducir la temperatura un 10 % y ganar una agradable sensación de frescor. Estas dos colecciones escriben una nueva tendencia en la fabricación de pérgolas.

SAULEDA SCREEN 50

A special fabric for screens that guarantees maximum visual comfort both at home and at work. It allows you to see the exterior while preserving the privacy of the interior, while guaranteeing the entry of natural light. In addition, it prevents reverberation (echo), glare on screens, especially necessary in office spaces. 5% aperture. Un tejido especial para screens que garantiza el máximo confort visual tanto en casa como en un espacio de trabajo. Permite ver el exterior preservando la intimidad del interior, al tiempo que garantiza la entrada de luz natural al interior. Además, evita el deslumbramiento en pantallas, especialmente necesario en el espacio de oficina y la reverberación (eco). 5 % de apertura.

CRISTAL ACHILLES

Cristal is a fabric consisting of a transparent film of different thicknesses designed for use in pergolas and enclosures. In addition to its resistance and insulating capacity, it is an ideal material for those situations in which the passage of natural light is necessary and being able to see through, as if it were a window, is a must. Cristal Achilles es un tejido consistente en un film transparente de distintos grosores pensado para su uso en pérgolas y cerramientos. Además de su resistencia y capacidad de aislamiento, es un material ideal para aquellas situaciones en las que se hace necesario el paso de la luz natural y de poder ver a través, como si de una ventana se tratara.
